

Philosophical Inquiry

An Introductory Course

12 & 13 August 2019

This two-day Introductory Course is designed to enable teachers to undertake PI in their classroom.

Date: Monday 12 & Tuesday 13 August 2019.
Attendance on both days is required.
Time: 8.30am – 3.30pm.
Place: Hillbrook, 45 Hurdcotte St Enoggera.
QLD 4051
Cost: \$580 inc GST

**Presented by Amy Eberhardt, Tegan Baumgart,
Stephen Driver, Lynne Hinton.**

Background

Aristotle argued that what sets people apart from other living things is their capacity to think and acquire wisdom.

Engaging students in Philosophical Inquiry (PI) teaches them to think well about the big issues that are fundamental to the lives of us all. During the discussion, students reflect on prevailing beliefs, explore alternative viewpoints, recognise faulty reasoning, give and accept reasons, test hypotheses and so on. In this way they learn to be reflective, sensitive to meaning, divergent and reasonable.

Philosophical Inquiry is a core subject in years 7-10 at Hillbrook and is also integrated into other subject areas. Philosophy and Reason is available as a senior subject.

Content

An overview of the discipline of philosophy, a brief history of philosophy in schools and why it is an important part of educational practice, as well as the knowledge and skills needed by teachers to introduce PI into their classrooms.

This course is for Early Childhood, Primary and Secondary teachers.

Resources

Participants will be encouraged to pre-purchase either:
Cam, P., et al (2007). *Philosophy with Young Children: a Classroom Handbook* ACT: Australian Curriculum Studies Association. (Primary).
OR
