Queensland Health will continue to update these locations throughout the day and over the weekend and you can check on them [here](#). If you have been to any of the listed locations, at the times indicated, please follow the advice of the Chief Health Officer and get tested. If you would like more information please visit the [Queensland Government COVID page here](#).

The Premier and Chief Health Officer have also recommended if you visit any crowded indoor venues over the weekend to wear a mask.

Until we know whether there is any other community transmission we will be reverting back to our previous guidelines around testing and coming to school which is:

“If you, **or anyone you live with**, is being tested for COVID, we ask that you remain away from school until the test result has come back negative.” Please let us know if you or anyone in your family needs to be tested.

We will keep you updated if anything changes. If you have any questions, please feel free to contact us.

Yours sincerely
